

Immanuel United Church of Christ Missionfest 2010

Every inch of available wall space in our building is used to display member art – art that is created as part of their journey to recover from severe mental illness. Thanks to the work of the IUCC painting crew, BOTH of our stairwells are now clean and bright and the members’ art work can be hung for everyone to see. When members see their art displayed on the walls it improves their self esteem and their self confidence. It helps them believe they can recover and it gives them hope.
